

LHCb Computing Operations

Monday, May 07, 2007

Present : Joel Closier, Andrew Smith, Marcos Seco Miguelez, Roberto Santinelli, Marianne Bargiotti, Stuart Paterson, Andrei Tsaregorotsev, Roland Bernet, Umberto Marconi, Philippe Charpentier, Matvey Sapunov

Simulation:

Nothing to report. Waiting for the new Gauss version

Reconstruction:

CERN: intervention on Castor this morning. Otherwise some request are stuck in the tape server if not it is running Ok

IN2P3 : no problem

RAL : raja has recover some data and we have to re-register the files in the LFC. Otherwise running happily.

CNAF: no more jobs. One request found stuck. Waiting for Angelo.

NIKHEF : no more jobs

GRIDKA: slow response from SRM, so only few jobs running

PIC: SRM is very slow to answer at PIC. Andrew should submit a GGUS ticket. Is lcg-gt issue a stager request with CASTOR 1 ?

Stripping:

New brunel and Davinci version. Problem of Dcache at Lyon is not solved... Running Ok at CERN and PIC

AOB:

Mail send to lfc-support without any answer .. Try to call to speed up the process..

Check the definition of CASTOR_debug
